Dear Mr Allen

RE: C/199974

Thank you for your letter dated 1 July and the information enclosed.

During the last meeting I raised a separate issue relating to the registration number allocated by us to Frank Wright Trouw. Unfortunately I am able to inform you that as I suspected there has been an administrative error by ourselves at the time of allocating your registration number and I would like to allocate you a different registration number which reflects the one we have on our records, this is:

GB061 R10022

I would appreciate it if you could amend this on your product labelling at a time convenient to yourselves to reflect this change, however, I would hope that any re-labelling required due to the issuing of the latest Code of Practice may be an opportune time.

I have informed the Food Standards Agency of this change with a view to them amending their national register.

Please let me take this opportunity to apologise for any inconvenience this has caused but if you require any further assistance on this matter please do not hesitate to contact me

Yours sincerely
